## Synopsis

The Lalor Foundation postdoctoral fellowship program supports promising new researchers in establishing scientific and teaching careers. The mission of the program is to support these researchers early in their work so that they can become independently funded in the field of mammalian reproductive biology as related to the regulation of fertility.

## Eligibility

The individual nominated by the applicant institution for the postdoctoral fellowship for conduct of the work may be a citizen of any country. The individual should have training and experience at least equal to the Ph.D. or M.D. level and should not have a faculty appointment (i.e., instructor, lecturer or higher). Potential fellows should not have held the doctoral degree more than two years from receipt of the degree.

The applicant institution may make its nomination of a fellow from among its own personnel or elsewhere, but qualifications being equal, candidates from other than the proposing institution itself may carry modest preference.

## Funding Guidelines

1. Fellowships are $50,000 per year for coverage of fellowship stipend, fringes and institutional overhead. Other expenses are not allowed. Institutional overhead may not exceed 10 percent of the total fellowship award. Renewal for one additional year is possible under special circumstances.

   **Renewal Applications:** Fellowship renewals are not automatic; renewal applications are reviewed along with the pool of new applicants. Renewal applicants must submit a new application online.

## The on-campus nomination process

- Research Associate Deans advise faculty of restricted funding opportunity. Web sites are included to help distribute program information.
- Applicants provide their Research Associate Dean with a nomination that includes a 2-page Curriculum Vitae and Nomination Cover Letter detailing how the nominee meets the requirements for the award.
- Colleges select only as many candidates as allowed (number specified above).
- Colleges fill out the Limited Submission RFP Nomination Form cover page found on the Limited Submission Program Announcements web page: [https://rsweb.research.colostate.edu/restrictedprograms/restricted_programs.aspx](https://rsweb.research.colostate.edu/restrictedprograms/restricted_programs.aspx)
- Colleges forward nominations, including the Limited Submission RFP Nomination Form cover page, to Sponsored Programs via email (Restricted@research.colostate.edu).
- The Vice President for Research and the VPR leadership team, in consultation with the Deans or other advisory groups as necessary, will determine which proposal(s)
