State of Discovery

At Colorado State University, we aspire to ensure our research creates a lasting legacy of positive outcomes.

Research Excellence

Create. Innovate. Diversify. Aspire. CSU researchers are leaders of innovation in animal cancer, agriculture, infectious disease, clean energy and more.

World-class facilities include the University Center for the Arts, Research Innovation Center, Behavioral Sciences Center, Powerhouse Energy Campus, Advanced Beams Laboratory, and cGMP drug manufacturing process suites.

2014 Accomplishments

- $308 million total annual research expenditures
- 6% increase in number of awards received
- 19 programs of research and scholarly excellence
- 122 invention disclosures
- 49 new patents filed
- 5 new start-up companies
